There is nothing so decorative in its effect as new Wall Paper of a pretty and novel design, or a painted wall, when done in soft tones or rich colorings. The dainty effects I am showing in Wall Hangings, Relief Decorations and Tinted Designs will certainly please the most particular eye. I have the largest and best equipped House Painting establishment in the South, using nothing but pure lead, oils and colors, and employing only the best workmen.

MANY BUILDINGS THAT ARE GOING UP

Inspector Beck's Office Kept Busy Issuing Permits for Erecting Houses.

ACTIVITY IN THE SUBURBS

Residences Going Up Everywhere, and Tenants Applying Before Foundations Laid.

The records in the office of the Building Inspector show that there is no likelihood of the building boom in Richmond subsiding for quite a time to come. Permits for the erection of various kinds of houses within the city limits are being issued daily. The most of these recently issued are for dwellings, but a number of business houses are soon to be started, among them a brick automobile garage at No. 88 and 810 West Broad Street, to cost \$3,000; a brick store and flats at No. 1800 East Main Street, to cost \$8,000, and quite a number of cheaper houses.

Mr. W. W. Haley recently purchased from F. C. and Harry Kellam, through J. Thompson Brown & Co., a large lot at the corner of Main and Lombardy Streets, and has commenced the erection there of seven handsome brick houses, and the work is now well under way. The corner building is to be a large and well-arranged storehouse, and Messrs. Brown & Co., the agents, have already leased it for a term of five years to a well-known West End grocer, who will open there a twentieth-century drug store. Tenants are already applying for the residences that are being erected by Mr. Haley.

More Building Permits. This firm has also sold to Mr. O. J. Davis eighty-two feet on Gresham Avenue and 109 feet on Dooley Avenue, upon both of which properties Mr. Davis proposes to build at once, permits having been granted by Inspector Beck.

The buildings which are being torn down at the corner of Seventh and Broad Streets are to be replaced at once with business houses of a more substantial character and much more imposing appearance. The permits have not yet been issued, inasmuch as the owners have not fully settled upon plans and specifications, but it is certain that they will be issued and the buildings put to work as soon as the two old houses are removed.

Much Work in Suburbs. There is no lack of building operations in the suburbs. During June the sales of Ginter Park lots exceeded the record of 1907 by many thousands of dollars, and the demand for choice locations in this beautiful suburb is steadily growing. Sixteen handsome buildings are at present under construction, and estimates are being taken for about dozen others, many of which will undoubtedly be started during the summer. The public school will be opened in the fall, and competent teachers were chosen last Thursday. The school building is one of the most complete in every detail ever erected in or around Richmond, and will meet the requirements for years to come. The assembly hall and various meeting rooms are now available for general use for lodge meetings, social affairs, public meetings, etc., and the charges are to be most reasonable.

The social life of Ginter Park is very delightful, and lawn parties have been much in vogue during the past few days, and the semi-tennis courts are in frequent use.

After a hard day's work in the city, it is most refreshing to get out to the green lawns and shady avenues of Ginter Park.

NEW INDUSTRIES IN BUSY RICHMOND

Alcatraz Asphalt Paint Co. Adds Another Department, and Now Manufactures Disinfectants.

The Alcatraz Asphalt Paint Company, Incorporated, of this city, have recently enlarged their plant and added the manufacture of high grade disinfectants.

Seeing the immense business being done in this line in the Southern section of the country, they decided to hold the crude material, they had been shipping North and West, and manufacture same and put it direct to the trade. Their leading product is the Karbo nonpoisonous disinfectant, and these they are shipping to every State of the Union. In the month of June they made large shipments to California, Nebraska, Louisiana, Ohio, Illinois, Pennsylvania and New York.

Mr. Armistage, the president of the

company, says the prospects for July are much brighter, and if orders continue to come in as rapidly as they have been coming the past three days, the company will more than double their business of June before July passes away.

OPENING UP NEW MINES.

The Ethel Property, Near Mineral, Being Developed.

[Special to The Times-Dispatch.] MINERAL, VA., July 4.—There is now a Northern company working the Ethel gold mining property, about five miles from Mineral, Va., and it is said that if good results are obtained it will be the means of their opening up on a large scale in the gold mining industry.

There is also another company to begin work on the McDonald tract, formerly known as the Goodwin gold mining tract. All the merchants of Mineral appear to be doing a good business, and general outlook for future progress seems very bright.

Spencer Has Board of Trade. [Special to The Times-Dispatch.] SPENCER, N. C., July 4.—A Board of Trade was organized in Spencer Thursday night, with G. W. Connell, a leading merchant, as president; A. W. Hicks, secretary; R. R. Dornett, treasurer; Rev. J. M. Dunaway, chairman, and J. P. Crowell, E. S. Burgess and B. O. Blacklock vice-presidents. The new organization includes some of the leading citizens and business men of the community. The object of the board is to build up and develop Spencer, securing for the town a number of new and important industries.

Office for Air Line. [Special to The Times-Dispatch.] GORDONSVILLE, VA., July 4.—Captain T. O. Troy, president of the Virginia Air Line Railway, has rented rooms from Mr. J. H. Rimey, over the post-office, for his chief engineer and dispatcher. These rooms are to be fitted up for occupancy by August 1st.

Hot Water in Summer

Is just as necessary for some purposes as in winter, but—there's the heat. To reduce that to a minimum, ask us all about it, and get us to help you out. Modern inventors of plumbing devices have contrived a way out of the difficulty. Again we ask: Ask us.
